

Is R-Ladies for me?

Are you interested in data science?

Do you do data analysis?

Do you want to make eye-catching graphics?

Do you want to know about stats and machine learning?

Check out R, **R-Ladies is for everyone!**

R-Ladies Freiburg

Women* in data science

Even in 2020, women and gender minorities are vastly underrepresented in data science and technology careers.

R-Ladies global:

- is a worldwide organization with hundreds of local chapters
- aims to promote gender diversity in leadership, use, and teaching
- celebrates one of the most widely-used statistical programming languages: R!

Learn more at rladies.org

Why use R?

R is a language for **statistical computing** and **data visualisation** which is

- completely **free**
- the **standard** for statistical analyses
- **powerful** and **flexible**
- **open-source** and **well-supported**

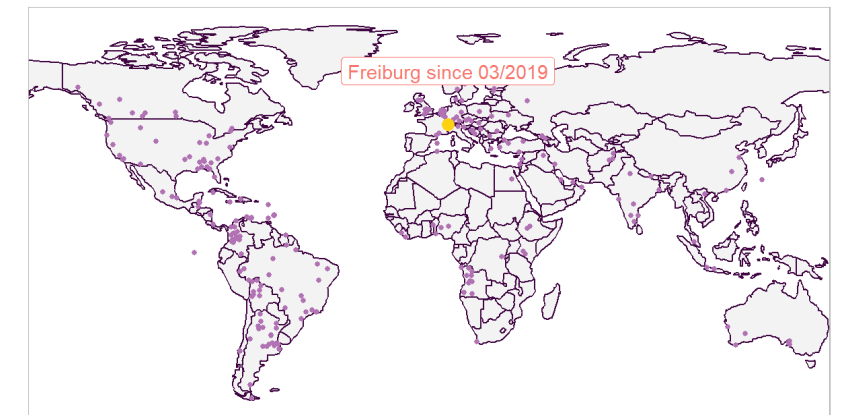

Wondering what you can do with R? Here some examples:

digital humanities
deep learning
web scraping
decision trees
tidyverse
statistics
data communication
analyse Twitter
analysis
distant reading
visualisation
graphs
ggplot
design data wrangling
data modeling
time series
reproducible science results
machine learning
geographical data
statistics
neural networks

Join R-Ladies Freiburg!

Your local chapter always welcomes new members!

R-Ladies chapters around the world

We meet

- in workshops to discuss one specific topic
- to do parallel coding
- or sometimes just to have fun

in a safe environment where we can all learn and exchange.

Are you a **complete beginner** or a **total profi**? Do you have any idea or work you want to share?

You are welcome to learn and share your expertise!
